

GREG ROY

Interim CTO · Platform & SRE Leadership · 20+ Years

greg@gregsplace.cc · gregsplace.cc · linkedin.com/in/greg-roy-kudzu · Nipissing First Nation, ON (open to remote)

Engineering leader who pairs strategic technical ownership with hands-on delivery. Scales teams and platforms, runs calm incident response, and ships across the full stack — Go services, native iOS/visionOS, and production Kubernetes on AWS. Currently Interim CTO of a 24/7 healthcare scheduling SaaS.

CORE COMPETENCIES

Engineering leadership & team building · Platform engineering & SRE · Incident command & on-call design · Cloud architecture & migration (AWS, EKS) · System design & architectural transformation · Kubernetes · Terraform · Go · PostgreSQL · CI/CD

EXPERIENCE

Interim CTO — *MetricAid Inc.*

2025 – Present

- Own technical roadmap, architecture, and cross-functional engineering coordination for a 24/7 healthcare scheduling platform.
- Drove EC2 → EKS platform migration (Helm + ArgoCD) and a zero-downtime live RDS production migration; stood up the org's first endpoint, secrets, orchestration, and CI/CD foundations. Reported roadmap to the board Tech Sub-Committee.

Engineering Lead Manager — *Index Exchange*

2018 – 2024

- Grew the team 15 → 35 (up to 21 direct reports); built database-platform, developer-experience, and operational-excellence functions.
- Designed on-call SOPs and OpEx reporting across all pre-production environments; SWOT-driven greenfield risk assessment.

Manager, Infrastructure Operations & DevOps — *BiblioCommons*

2017 – 2018

- Built the DevOps function, non-prod environments, and org-wide release pipelines on-prem and on AWS.

Senior Manager, Infrastructure Operations — *Sysomos*

2015 – 2017

- Led DevOps/Ops across two data centres plus AWS (team of 10); automated provisioning toward self-healing services.

Senior DevOps System Engineer — *eBay Canada (Kijiji)*

2012 – 2015

- First member of Canada Site Operations; led the Kijiji site migration and built the full environment suite.

EARLIER EXPERIENCE

Senior systems & infrastructure roles at Nerve Gaming, VeriSign, IBM Canada, Groove Media, Flight Centre, Hewlett-Packard, enTrac, and public-sector Y2K programs (1996–2012).

EDUCATION

Canadian Institute of Business — Programming & Network Administration, Sarnia, ON (1995).
